

Make a Custom Money

1. Extract "PSD.Money.rar" File From Main Folder
2. There is 2 file in this .rar file , "Custom.psd" is main frames and "Money.psb" is Money Template.
3. Open "Custom.psd" in Photoshop.

4. Double Click on Layer "1" in Layers Section:

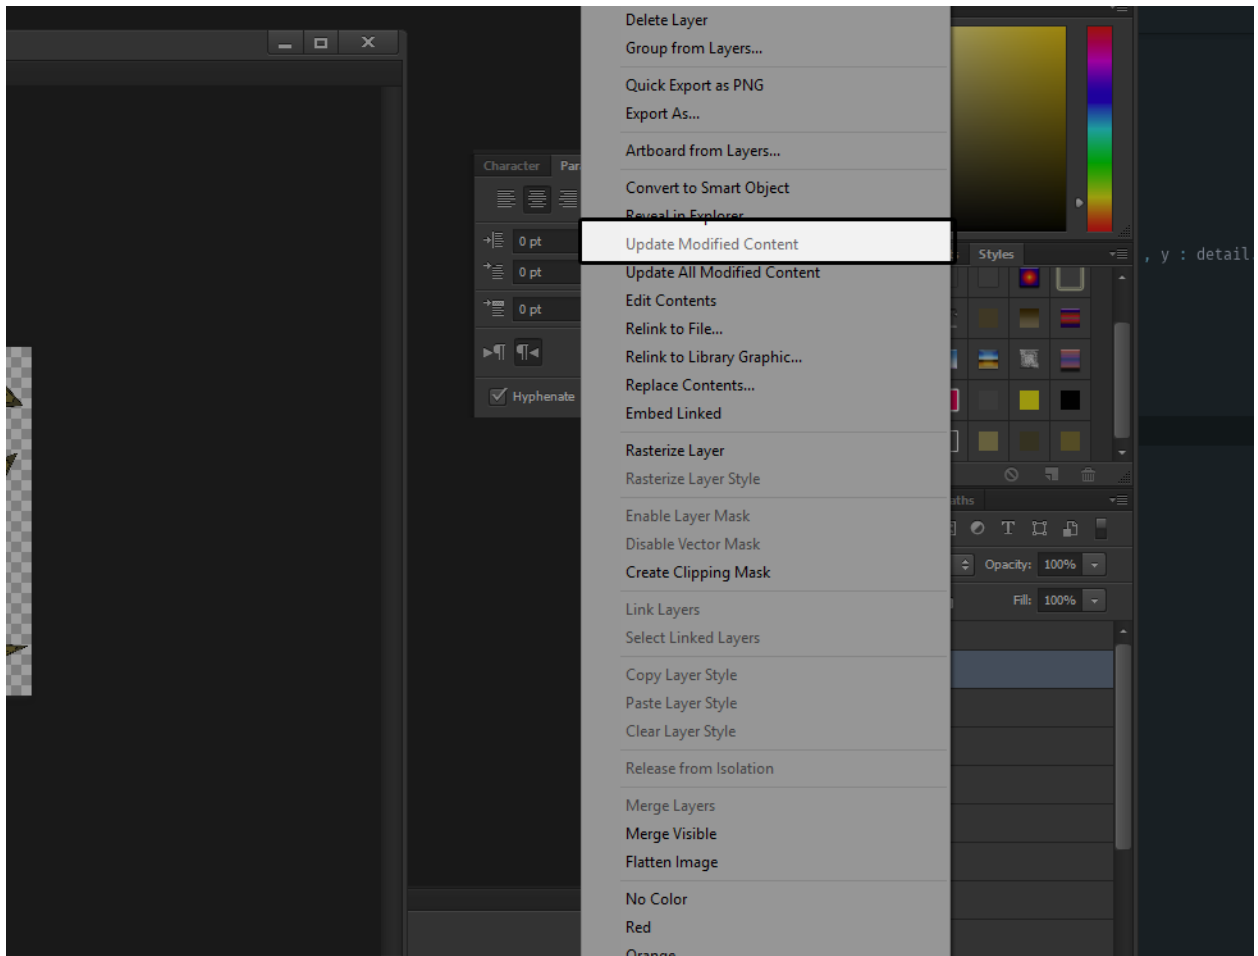

Now “Money.psb” Opened.

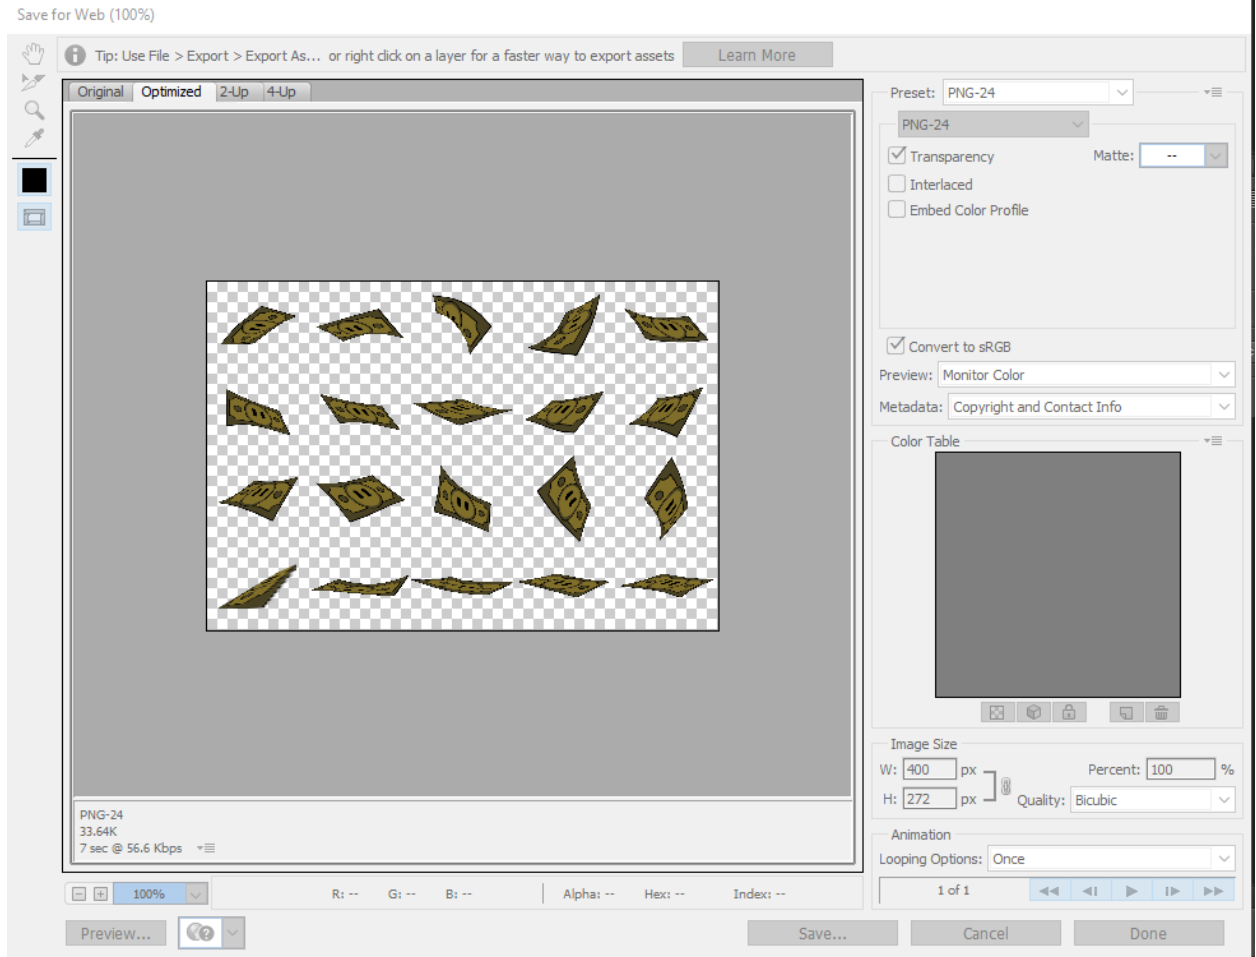

5. Change What You Want in Money.psb Template. And Save it.

6. Now Back to Custom.psd File , if You Did not see your Changes Just Right Click on One of Layers And select “Update Modified Content”

7. Now save “Custom.psd” With
File->Export->Save For Web (Ctrl + Alt + Shift + S)

Select File Type “PNG-24” And Save/Overwrite in
 %YOUR_WORDPRESS_FOLDER%\wp-content\plugins\blackcore-make-it-
 rain\images\custom.png

8. Go To Wordpress Admin And “Make it Rain” Plugin Setting And Select Paper Type “Custom”
